## **Mini Project (21CSM607) Status**

<b>Mini project Id</b>	B25
<b>Title of the Project</b>	Automated College Management System for Enhanced Student Information Tracking

<b>USN</b>	<b>Name</b>	<b>Contact Number</b>
1DA21CS052	DIVYA S	8971210812
1DA21CS095	NITHIN SIVAKUMAR	8050036469

<b>Status of the Project (Brief about work Completed)</b>	<b>Name and Signature of Guide</b>
The status of the "Smart College Management System" mini project is progressing well. The website development phase has been successfully completed, providing a solid foundation for the system. Currently, the integration of IoT components is underway. The team has successfully integrated the fingerprint scanner with Arduino and NodeMCU, ensuring secure and efficient user authentication. The next steps involve interfacing the RFID system and establishing a seamless connection between the IoT devices and the web interface. This integration will enable comprehensive management capabilities and real-time data synchronization, advancing the project towards its completion.	DR NANDINI N
